

ABOUT US

COVENTINO™ was created for those who believe in pure art used in ways that will accomplish the ideal balance between classic beauty and modern living. With over 10 years in the engineered flooring industry, COVENTINO™ is manufactured with the most advanced technology around the world, gathering top of the line products from countries like Brazil, Canada and Italy, among others.

Each COVENTINO™ product is hand crafted by highly trained and qualified artisans who dominate the collection's wood species which include oak, walnut, larch and maple. COVENTINO™ focuses in using texturing and coloring techniques to highlight the wood's natural beauty. In all of our production processes, special attention is given to the environmental concerns to ensure our clients the highest quality products.

OUR NETWORK

As mentioned before, the origin of our woods is diverse; we have searched thoroughly to bring only the best from each place.

Woods are shipped to us from Belgium, Brazil, Canada, China, Guatemala, Italy and Spain. We distribute them through Mexico and the United States, after carefully evaluating them to ensure the delivery of only high quality produce.

COVENTINO EMBRACES THE NATURAL VARIATIONS OF WOOD

Wood naturally presents variations of color and veins, due to the diversity from one tree to the other -even if they both belong to the same species- which makes every plank unique and full of natural beauty. The photographs and tones shown in this catalogue are only indicative of the actual product due to such differences.

OUR GREEN CERTIFICATE

COVENTINO™ was created by Pisos Creativos©, a company founded in 1996 that specializes in the commercialization of vinyl, laminate, decking and hardwood flooring.

Over the years, Pisos Creativos has become the leader in the Mexican market, gaining tod respect among designers, architects and the final consumer.

Additionally, Pisos Creativos has always been known for being environmentally responsible, and the FSC certification that the company obtained in 2013 is proof for such commitment .

FSC is an international Non Governmental Organization that promotes the safeguard and improvement of the environment.

The FSC label identifies product and/or companies that comply with such requirements, guaranteeing consumers that the company they are buying from is eco-friendly.

The mark of responsible forestry

ENGINEERED HARDWOOD FLOORING

THREE-LAYERED FLOORBOARD

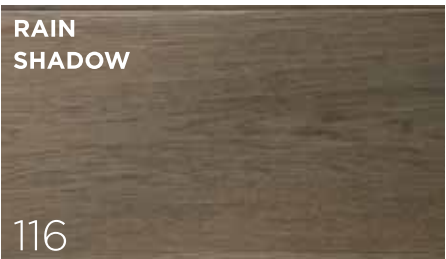

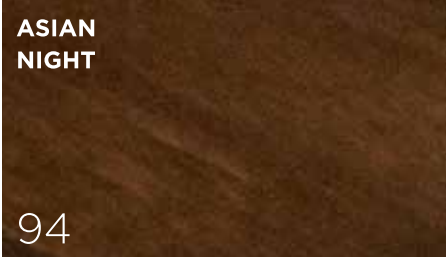

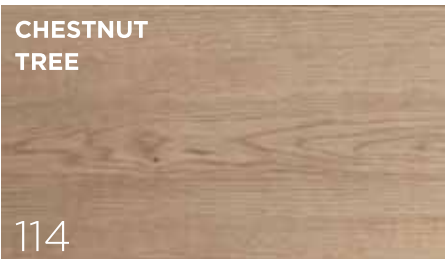

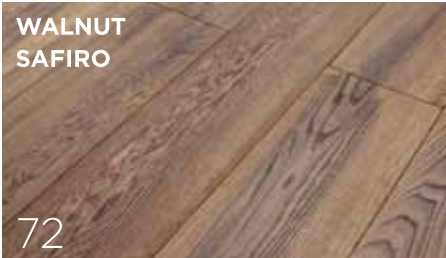

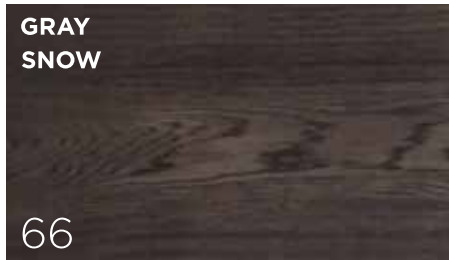

The upper diagram depicts the composition of each COVENTINO™ floorboard, made out of three layers that give our flooring system long lasting quality.

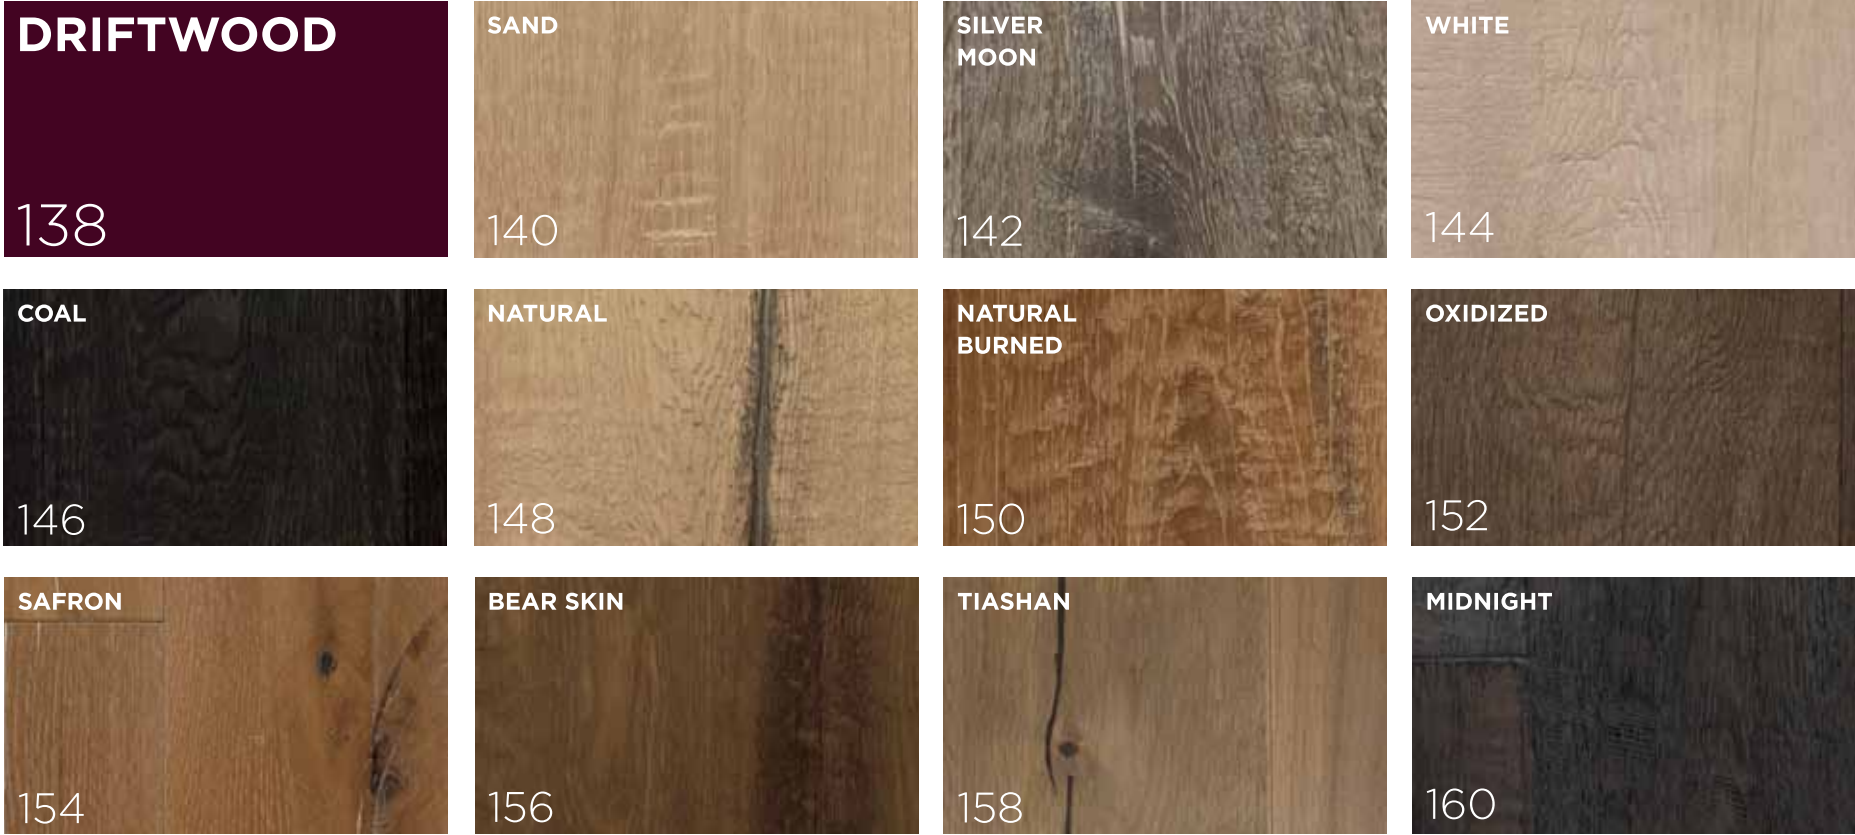

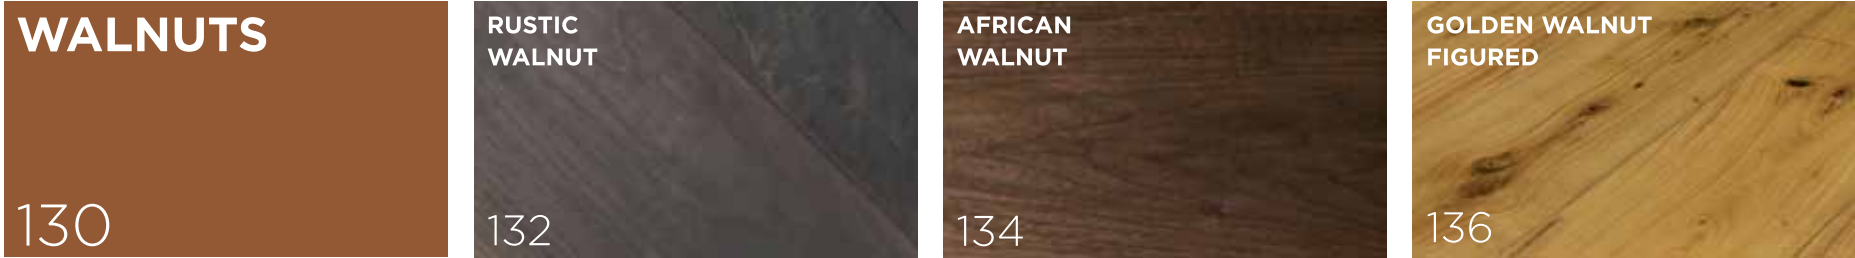

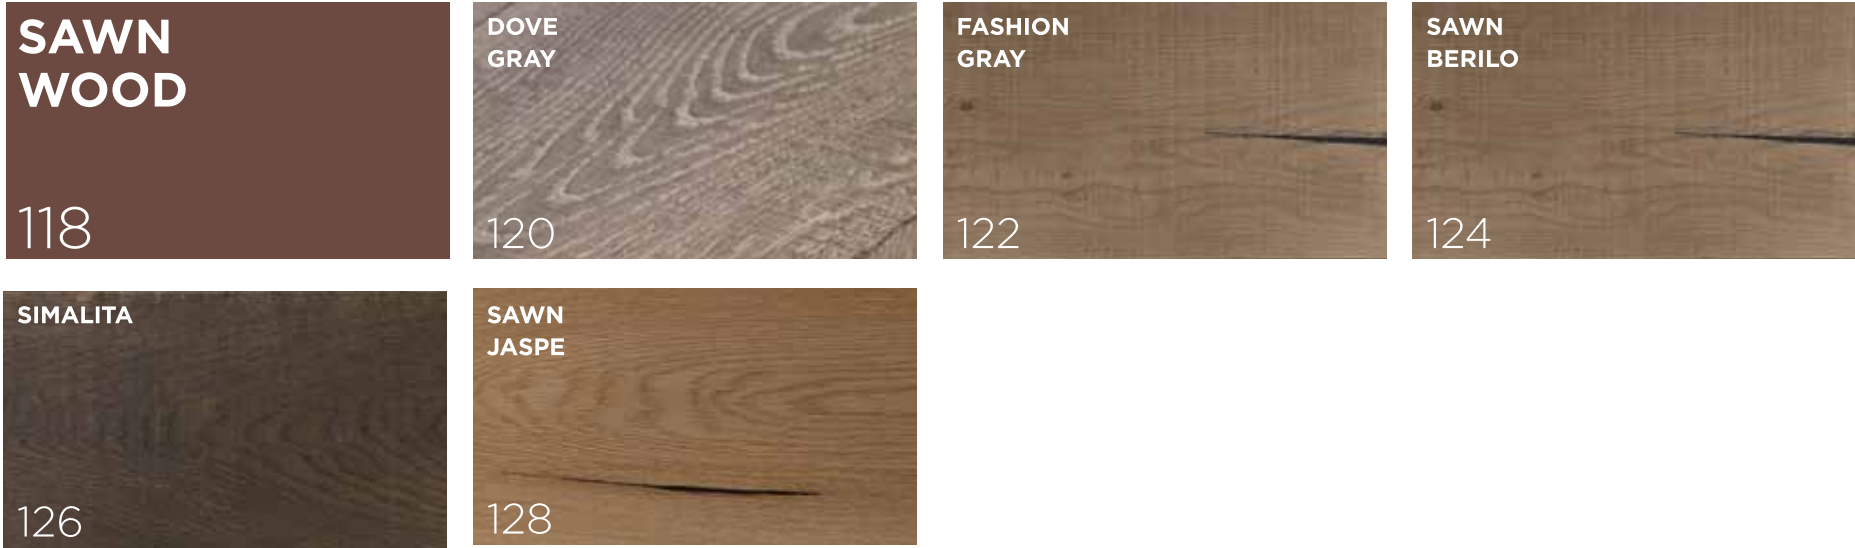

Uniform layer of matt varnish or oil depending on the wood.	1 cm of birch plywood.
0.4 cm of high quality hardwood. Species vary depending on product.	Tongue and groove..
	0.1 cm counter layer
